

- Grades 3-7
- Develops reading skills and fosters vocabulary acquisition.

### Content

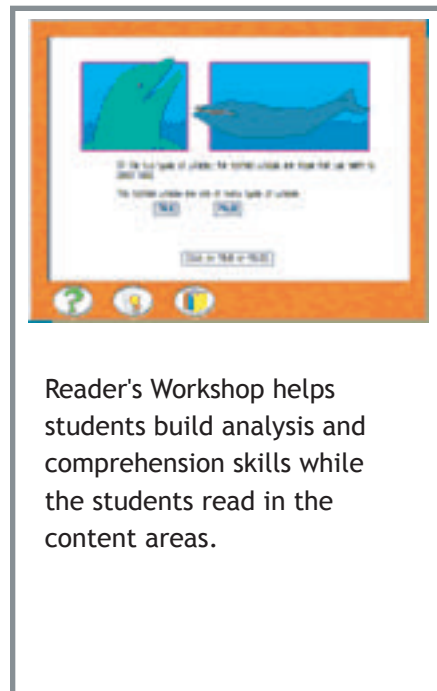

- More than 500 reading passages covering a wide range of topics and writing styles, plus graphic material such as tables and charts.
- Integrated practice in two primary course strands, Passage Comprehension and Thematic Lessons.
- Five specific strands that develop and apply skills to a variety of contexts: Word Analysis, Word Meaning, Literal Comprehension, Interpretive Comprehension, and Reference Skills.

### For the Student

- Vocabulary development.
- An emphasis on reading for information that builds comprehension skills.
- A reading-thinking approach that teaches students to analyze text and interpret information graphics.

### For the Parent

- Options for customizing learning for remedial, developmental, and accelerated students.
- Results Manager individualizes each lesson for the student, based on the student's demonstrated strengths and weaknesses in the skill areas.

Reader's Workshop helps students build analysis and comprehension skills while the students read in the content areas.
